Flag: Follow up

Maggie,

I updated the aluminum criteria as well as the wetlands section based on your comments. Let me know if that is recommended.

Thanks

Hi Josh,

Good to speak with you. Attached are:

- 1) a submission checklist that describes what is required for submission if a Tribe has TAS for WQS,
- 2) a WQS triennial update steps guide (I've flagged what isn't required when tribes don't have TAS), and
- 3) a timeline for hearings and notice.

Please let me know of any more questions.

Maggie

Subject: WQ Codes

Good afternoon Maggie,

I just wanted to check before I went any further what are the steps to the Tribe adopting their own Water Quality Codes? Post in a newspaper and/or posted in a public place for the public to review? Or is it just up to the tribe to decide? And sorry because I know we have discussed this before but I cannot remember. Also I seen you were on the agenda for the upcoming RTOC call and was wondering if any of that effects tribal WQ codes?

Thanks,

Joshua Tweeton, Director
Environmental Protection Administration
